

Scanmarket/Unit4 is looking for a dedicated IT Project Manager to join our Swiss office

Do you want to join a professional service team and work with various tasks in a global IT company? Are you proactive, service minded and possess an analytical mindset? And are you looking for an exciting role within project management to build your career on? Then we have the right job for you.

The role:

The role offers excellent growth opportunities and will be a perfect fit for an IT competent person with great interpersonal and analytical skills. As an IT Project Manager your goal will be to manage client faced implementation projects, conduct data analysis, and provide strategic advice to our customers.

Responsibilities:

- Plan and manage projects to successfully deploy,
- Extend and maintain applications for both our Swiss and International customers
- Coordinate and control of all project tasks and deliverables with respect to deadlines, finances, quality, and risks
- Design and manage specifications and implement customized solutions in close cooperation with our customers
- Implement application customization and configuration according customer's requirements
- Onsite/Remote application installation, application end user/administrator training and handover of deployed solution to our customers
- Central point of contact during project phases concerning all customer's requests and issues

We offer you:

- A job with professional challenges and diverse tasks in an international-oriented and fast-growing company
- High degree of personal responsibility and individuality with possibility to develop yourself personally and professionally

- An environment in which innovation and initiative are given a high importance
- To work with a friendly, entrepreneurial, and highly motivated team
- An in-depth training of our applications, configurations, and our company culture by dedicated colleagues.
- Excellent work-life balance with the option to work from home a couple of days in the week.

Who are you?

We are looking for a committed and driven Project Manager with a problem-solving mindset. Additionally, the ideal candidate will have the following skills and traits:

- An IT degree and/or relevant work experience
- Experience with Web-Technologies and SW-Engineering (HTML, JavaScript, .Net, XML, C#, etc.)
- Strong it-analytical skills
- Self-driven and a “can-do” attitude
- Structured and detail oriented
- Diligent and efficient way of working.
- Responsible and enjoy building relationships with customers
- Fluent in English (oral and written), additionally German and/or French would be appreciated

The Practicalities:

- **Workplace:** Our Swiss office in Sugiez close to Bern/Fribourg and from home.
- **Travel days:** app. 10 days yearly
- **Application:** Please send your application and CV in English to People and Culture Manager, Jane Schumann; jasc@scanmarket.com with cc to Director of Services; Simon Hänggi, siha@scanmarket.com as soon as possible. Interviews are held continuously. For questions or further details regarding the position please call Jane at +45 4268 2800 or Simon at +41 (0) 26 673 9002.

About Scanmarket

Scanmarket is a source-to-contract software provider that develops advanced functionalities in an effortless design. We are an energetic team across our offices in Denmark, USA, United Kingdom, The Netherlands, Switzerland, and Germany. From our Swiss office we deliver Contract Management and Compliance Management solutions to our customers all over the world.

About Unit4

As of June 1, 2022, Scanmarket has been acquired by Unit4, a leader in enterprise cloud applications for mid-market people-centric organizations. With Scanmarket onboard Unit4 provides organizations with a unified Source-to-Pay journey, building on its existing ERP and Procure-to-Pay (P2) offerings. This enables customers to gain deeper insight into their spend, and to manage suppliers and contracts better with an enhanced customer experience.
